

IYVONNE ANNE AYOYI

Nairobi, Kenya | +254 711 388 820 | iyvonneayoyi@gmail.com | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Results-driven Geospatial Information Science graduate with nearly 2 years of progressive GIS experience across environmental monitoring, land management, infrastructure planning, and water resource mapping. Proficient in ArcGIS Pro, QGIS, Google Earth Engine, and PostGIS, with a solid foundation in spatial data management, remote sensing, and geodatabase principles. Demonstrated ability to lead geospatial workflows, manage multi-source datasets, and deliver accurate spatial outputs to support multidisciplinary teams. Passionate about leveraging data-driven geospatial technologies to drive innovation in urban development and infrastructure projects.

TECHNICAL SKILLS

GIS Platforms ArcGIS Pro, ArcMap, QGIS	Spatial Analysis Google Earth Engine, PostGIS	Programming R, SQL, JavaScript	Remote Sensing Satellite Imagery, Land Cover Analysis
Data Management Geodatabase, Topology, Coordinate Systems	Web Technologies HTML, CSS, JavaScript, Git/GitHub	Analysis Tools Microsoft Excel, R Studio	Project Skills Leadership, Stakeholder Collaboration

WORK EXPERIENCE

GIS and Applications Developer

Sept 2025 – Dec 2025

Ecospace Services Limited, Nairobi, Kenya

- Led digitization and maintenance of land parcel datasets using QGIS and ArcGIS Pro, ensuring accurate land boundary definition for spatial planning initiatives.
- Delineated overlapping and unclear parcel boundaries from satellite imagery, significantly improving spatial accuracy for land ownership and land use analysis.
- Applied Google Earth Engine (GEE) scripts to support large-scale spatial analysis of land and environmental datasets, driving data-driven decision-making.
- Designed and enforced GIS documentation standards, improving team workflows and data integrity across administrative regions.
- Leveraged PostGIS and R for spatial data handling, analysis, and environmental and land-use assessments including habitat risk mapping.

Remote Sensing Analyst (Contract)

Feb 2024 – Mar 2024

Suni Smart Energy Limited, Nairobi, Kenya

- Performed land cover and land use analysis using satellite imagery to support renewable energy planning and environmental impact assessments.
- Conducted time-series analysis to monitor and quantify spatial changes in land resources, informing strategic planning decisions.

Geospatial Analyst Intern

Apr 2023 – Apr 2024

Coast Water Works Development Agency, Mombasa, Kenya

- Collected and processed GPS-based field data supporting accurate spatial mapping of land and water infrastructure assets.
- Conducted watershed delineation and spatial analysis to inform water resource management and infrastructure development decisions.
- Managed multiple concurrent GIS tasks and datasets, consistently delivering accurate spatial outputs on time for planning teams.
- Performed site assessments and mapping activities, contributing to infrastructure planning and resource allocation across the Coast region.

Geospatial Analyst Attaché

Feb 2021 – Apr 2021

Kenya Forest Service, Nairobi, Kenya

- Conducted land use and land cover mapping to support sustainable forest and land resource management.
- Performed GIS analysis to monitor environmental changes, interpreting satellite imagery for land classification and resource assessment.

Geospatial Analyst Attaché

Jul 2019 – Sept 2019

Jomo Kenyatta University of Agriculture and Technology, Nairobi, Kenya

- Conducted chain and topographical surveys, producing accurate spatial data and topographic maps for land-based project documentation.
- Processed and analyzed satellite imagery for land assessment and spatial analysis in support of academic research.

EDUCATION

Jomo Kenyatta University of Agriculture and Technology – Nairobi, Kenya *Sept 2017 – June 2022*

B.Sc. Geospatial Information Science

ALX Africa – Remote

March 2025 -Nov 2025

Professional Foundations & Frontend Web Development

Ngao Labs

June 2026

Data Science and AI Foundations

ADDITIONAL INFORMATION

Languages: English (Proficient), Kiswahili (Native)

Interests: Nature & Wildlife Conservation, Web Development, Reading
